

# Data Sheet

## UK Modular Outlets — Series 2 Range

### Description

Our 'Series 2' range of modular outlets is designed to be more robust than previous offerings, and provides improved bend radius support for high performance data cables. With bevelled raised faceplates and angled shuttered facias, these outlets can be used in spaces with limited depth e.g. in trunking, under floor or in other crowded containment routes.

By using these new components, the minimum recommended back box depth is now only 35mm (see image above); giving greater flexibility during installation and maintaining the mechanical and electrical performance of the cabling system.

Single Gang 'Euro style' faceplates can be configured as single or double outlets—using blanks to position the shuttered outlet (50x25mm version) into desired position—either centrally using quarter blanks or to one side using a half blank. Double gang Euro style faceplates can accommodate up to 4 shuttered outlets. Again, these can be configured to suit the client, using blanks.

Two styles of keystone shutters are available; a 50x25mm Euro style angled shutter (for faceplates) and the 38x25mm LJ6C angled shutter for floor boxes and other standard 6C aperture applications.

Both styles accept a range of Datwyler keystone connector modules;

- PS-GG45 7A 4P shielded
- RJ45 module KS-T Plus 1/8 shielded
- RJ45 module KS-TS 1/8 shielded
- RJ45 module KS-T 1/8 shielded
- RJ45 module KU-T 1/8 unshielded

**Please note—Keystone Connector modules must be ordered separately.**

| Part Number | Description                                    |
|-------------|--|
| 222000      | Bevelled Single Gang UK Euro Faceplate         |
| 222001      | Bevelled Double Gang UK Euro Faceplate         |
| 222002      | Series 2 Angled Euro Shutter 50mm x 25mm White |
| 222003      | Series 2 Angled LJ6C Shutter 38mm x 25mm White |
| 222004      | Series 2 Half Blank 50x25mm White              |
| 222005      | Series 2 Quarter Blank 50x12.5mm White         |

The above items are also available in black— please contact us for more details.
